## COSC344 Assignment 2 Pair Assignment:

Assignment pair 17:

Beckham Wilson **wilbe447@student.otago.ac.nz** 7564267

Glen Garcia **gargl791@student.otago.ac.nz** 8982826

Gina's Gym Relational Schema:

Assumptions:

- Gender is enum with 3 values, "Male", "Female", "Other".
- Programme entity renamed to member_exercise as a program containing only one exercise doesn't make sense in the implementation but is fine in conceptual erd as it labels the many to many relationship.
- Excluded sets from scenario as conceptual erd excluded sets, hence we denote repetitions as total reptitions and denote sets in notes if required.

Pair Contributions:

Beckham Wilson: Sql, Schema and documentation

Glen Garcia: Sql, Schemaa and documentation
